The Clinton County Criminal Justice Program introduces high school students to the criminal justice system, the county and state corrections system and the juvenile justice system. Jobs in this pathway include police officer, county or state corrections officer, probation and parole officer, and juvenile justice worker. Field trips and classroom presenters will be scheduled after students have a sufficient knowledge of the criminal justice system.

A career in criminal justice requires you to read, understand criminal laws and write reports. Therefore, good reading, oral communication and writing skills are important. Additionally, students should have basic computer skills since students will be required to complete computer research during some of their class periods.

Students will also be exposed to various elements of the LCC Police Academy and the Corrections Officer Training programs.

Physical fitness activities are part of the curriculum.

Students will create a resumé, sample cover letter, and participate in mock job interviews with members of the criminal justice advisory committee.
