Dear Parents/Caregivers:

I hope that you are all well and staying healthy during this time of uncertainty. The safety and well-being of you and your families has to be the top priority. The CCRESA staff truly miss interacting and helping your child to learn and grow within the classroom setting. Due to the current circumstances, the administrative team has developed a plan to provide your children with remote learning options during the upcoming weeks. Staff will return from spring break on Monday and our teams will begin to implement the plan and reach out to all of you.

Next week, teachers will begin to create lessons and activities to share with you. They will be contacting you to gather information about your resources regarding technology, internet access, and any other items that may need to be addressed around this new learning format. Our goal is to begin remote learning starting the week of April 20th. We will continue to share information as we get ready to implement these new strategies.

For those students who have IEP’s and re-evaluation scheduled, we are going to do our best to adhere to the scheduled time frames while working closely with the entire team to see if we can do a mutually agreed upon virtual set up. Staff will reach out to communicate with you further regarding this planning.

If you need support with locating and utilizing the free breakfast and lunch programs around the county, you can check our website at www.ccresa.org or contact the school and we will do what we can to help.

Your help getting this new learning formant started is appreciated. We are all going to do our very best to support you and your child as much as possible during this unprecedented time. Additionally, we are aware that many of you have multiple children and/or are still working and trying to manage a household. We understand and respect that as many of us are in the same situation. This new learning model will require patience, understanding and even some problem solving along the way. However, we know that we can do this together and will do what we can to support all of you. Please continue to be well and stay safe. If you have any questions, concerns or needs, you call or email me directly.

Take care,
Vicki O’Rourke
